21	Associations between mental health, social vulnerability, physical activity, sedentary behaviour and sleep in young women	Catherine Draper
22	The influence of playgrounds on children's health: a scoping review	Cathrine Damsbo

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
23	Parasport promotion for military personnel: Best practice strategies from the nations of the Invictus Games	Celina H. Shirazipour
24	Physical activity, Sedentary behaviour and Sleep among children and adolescent in Ethiopia: Global Matrix 4.0	Chalchisa Abdeta
25	Achieving GAPPa 2030: does the answer lie in emerging theoretical disciplines?	Chitra Sharma
26	Is there an association between total physical activity level and VO2max among fitness club members?	Christina Gjestvang
27	2022 Hong Kong Para Report Card on Physical Activity for Children and Adolescents	Cindy Sit
28	Investigating the correlates of sleep duration within a global sample of preschoolers (aged 3-5)	Claudia I Maddren
29	Investigating the effects of an 8-Week Hatha Yoga Pilot Intervention for University Employees	Claudio R. Nigg
30	Reducing sarcopenia and maintaining independent living in frail older adults via reductions in sitting time	Daniel Bailey
31	Contribution of body composition and sport participation to children's health-related quality of life	Daniela Rodrigues
32	Sex differences and family determinants in children's time use: weekdays vs. weekends	Daniela Rodrigues
33	Generation Healthy Kids	Danielle Nørager Johansen

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
34	Results from Botswana's 2022 Report Card on Physical Activity for Children and Youth	Dawn Tladi
35	Review: Interventions that reduce sedentary behaviour in offices, and appraising transferability to working at home?	Divya Sivaramakrishnan
36	Increasing lifestyle walking by 3,000 steps/day lowers blood pressure in older adults with hypertension	Duck-Chul Lee
37	The Influence of Significant Others on Older Adults' Physical Activity in Kuwait	Eiman Alkhezi
38	The Double Jeopardy of Practice: Changing Relationships Between Physical Activity and Young, Disadvantaged Women	Ellyse Hopkins
39	Readiness and confidence to increase physical activity in chronic kidney disease	Faatihah Niyi-Odumosu
40	Citizen science to better understand barriers and facilitators of physical activity in South African adolescents	Feyisayo Wayas
41	Does disability type differentiate the perceived leisure-time physical activity constraints?	Gunay Yildizer
42	Importance of the same gender parental support on physical activity and physical self among adolescents	Gunay Yildizer
43	OASIS Community Project: Identifying intervention qualities to encourage and maintain active families in Lambeth, London.	Hannah Hersant
44	Effect of online feedback on physical activity in young and healthy individuals	Harunobu Usui

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
45	Physical activity profile of adult population in United Arab Emirates	Hassan Saleheen
46	Intersectional correlates of physical activity guidelines among 114,838 South Korean adults: Korean Community Health Survey2019	Heejun Lim
47	Understanding older people's engagement with online yoga classes: What works for whom, and why?	Heidi Gilchrist
48	Impact of training cessation on glucose metabolism in healthy trained male rats	Hira Shakoor
49	Feasibility of promoting physical activity in health services: perceptions of Omani health care workers	Huda Al Siyabi
50	Health Promotion Through Professional Volunteering in a Community Grant Project: A Case Study	Ima Strkljevic
51	Physical activity participation and sedentary behaviours in Hungarian children and adolescents	Istvan Soos
52	Correlates and determinants of transport-related physical activity among adults: An interdisciplinary systematic review	Jack Thomas Evans
53	Distinct adult transport-related physical activity (TRPA) trajectories exist independent of TRPA behaviours in childhood	Jack Thomas Evans
54	Practical considerations for pre-school-based physical activity research in low-income settings: the SUNRISE Malawi pilot study	Janine Kayange
55	Results from the 2022 India Report Card for Physical Activity among Children and Youth	Jasmin Bhawra

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
56	Uruguayan report card on physical activity for children and adolescents: The Global Matrix 4.0	Javier Brazo Sayavera
57	Physical Activity Guidelines for the Brazilian Population: development, diffusion, dissemination, and implementation	Jean Coelho Guimarães
58	Barriers, facilitators, sociodemographic and environmental factors related to physical activity practice in pediatric oncologic patients	Jean Coelho Guimarães
59	Associations of inclinometer-assessed sitting time with quality of life and fatigue in breast cancer patients.	Jeff Vallance
60	Effects of reducing leisure screen time on activity types and body positions in children	Jesper Pedersen
61	Trends in Meeting Physical Activity Guidelines Among Korea Adolescents, Korea Youth Risk Behavior Survey 2009-2021	Jiyeon Yoon
62	Results from the Philippines' 2022 Report Card on Physical Activity for Children and Youth	Jonathan Cagas
63	Results from Region of Murcia's 2022 Report Card on Physical Activity for Children and Adolescents	José Francisco López-Gil
64	Results from Spain's 2022 Report Card on Physical Activity for Children/Adolescents living with disabilities	José Francisco López-Gil
65	Impact of multisectoral work to promote physical activity in Jalisco, Mexico.	Juan Ricardo Lopez Y Taylor
66	Relationship between fear perception by COVID-19 and physical activity in Mexican parks users during pandemic	Julissa Ortiz Brunel

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
67	Differences in para report card for children and adolescents with and without disabilities in Lithuania	Jurate Pozeriene
68	Results from South Korean 2022 Report-Card on Physical Activity for Children and Adolescents with Disabilities	Justin Jeon
69	Mexico's 2022 Report Card on Physical Activity for Children and Adolescents	Karla Galaviz
70	Qualitative study of the perception and use of imagery in exercise environments by fitness professionals	Karol Nedza
71	Results from Finland's 2022 Report Card on Physical Activity for Children and Adolescents	Katariina Kämppi
72	How to Evaluate Physically Active Operating Culture in Early Childhood Education and Care?	Katariina Kämppi
73	Identifying facilitators to the effective implementation of a classroom movement integration intervention in primary schools	Kayla Elliott
74	Mapping objective physical activity measures to area-level indicators of obesity in Ghana	Kingsley Agyemang
75	Associations between physical activity and gaming activity of High School students.	Kwok Ng
76	Physical Activity Para Report Card from Ireland	Kwok Ng
77	Assistive Technologies as an Enabler for the Development of Para Sport: A Comparative Study	Kyra Angerer

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
78	Active Healthy Kids - Denmark 2022	Lars Breum Christiansen
79	Recreation and park centers response to the COVID-19 pandemic: shifting from wellbeing to essential services.	Laurel Finster
80	Physical activity interventions for people with moderate-to-severe traumatic brain injury: a rapid review	Leanne Hassett
81	Screen Use and Symptoms of Mental Health in Canadian Children During COVID-19	Leigh Vanderloo
82	Expert Appraisal of the Canadian Physical Activity Report Card for Children and Youth with Disabilities	Leigh Vanderloo
83	Support for autonomy offered to health professionals during a training to promote physical activity	Letícia Sposito
84	Association between onset and disappearance of pain and changes in physical activity among older adults	Linda Baumbach
85	Promoting physical activity among children with overweight: four case studies in the Netherlands	Linda Ooms
86	Effects of a school-based exergaming intervention on students' physical self-concept - a randomized controlled trial	Lisa Röglin
87	Effects of an online intervention on exercise professionals' anti-fat attitudes: A pilot study	Luciana Zuest
88	Physical inactivity and overweight/obesity in Latin American school students: a systematic review	Luis Gabriel Rangel Caballero

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
89	Changes in body composition and physical activity in relation to television viewing among adolescents	Makama Andries Monyeki
90	Development and validation of bioelectrical impedance analysis predicting total body water and adiposity in children	Makama Andries Monyeki
91	Effect of sleep duration, sleep quality on cardiovascular parameters in apparently healthy women	Manisha Kar
92	From horizontal to vertical, an experiential motor path through a post covid outdoor activity	Manuela Gamba
93	Methodological considerations in research with children with special educational needs and/or disabilities. A scoping review	Maria Karamani
94	2022 Canadian Report Card on Physical Activity for Children and Youth	Mark Tremblay
95	A physical activity and high blood pressure: results from population-based studies	Michele Cherfane
96	The association between body fat percentage and depression among adults in the United Arab Emirates	Mitha Albalushi
97	Malaysia Active Healthy Kids Report Card: Changes in Indicators from 2016 to 2022	Mohd Razif Shahril
98	Gender Differences in Child and Adolescent Participation in Organized Sport Across 19 Countries	Myranda Hawthorne
99	Physical Activity Report Card of Children and Adolescents in Nepal, 2022	Narayan Subedi

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
100	Do dietary behaviours mediate the longitudinal associations between screen-time and markers of adiposity?	Natalie Pearson
101	24-Hour Indoors and Outdoors-Active Play in Children & Youth during the COVID-19 Pandemic	Nattaporn Nilwatta
102	Using mass media to promote physical activity during the Covid-19 pandemic	Natthanan Sirigosoom
103	Socio-economic differences in physical activity and sedentary behaviour during the retirement transition: a systematic review	Nina Vansweevelt
104	Changes in (non-)movement behaviour during the retirement transition: protocol for the Move into Retirement Study	Nina Vansweevelt
105	Effects of Wearing Facemasks on the Physiological Parameters and Physical Performance during High-Intensity Exercise	Nisreen Alwan
106	Mediation role of cardiorespiratory fitness on the association between physical activity and QOL in children	Nobuaki Tottori
107	Clustering of diet, physical activity and sedentary behaviour and related physical and mental health outcomes	Noura Alosaimi
108	Physical activity during and beyond Covid-19: experiences of young people living in socioeconomically deprived communities	Olivia Alllott
109	Using the Behaviour Change Wheel to Understand University Students' Sedentary Behaviour and Identify Intervention Strategies	Oscar Castro
110	How Sedentary Are University Students? A Systematic Review and Meta-Analysis	Oscar Castro

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
111	Let's Move – Boost Happiness: Thailand Report Card on Physical Activity for Children and Youth	Pairoj Saonuam
112	Physical activity-related injuries in adolescents: what are the associations with selected measures of well-being?	Peter Bakalár
113	Results from Slovakia's 2022 Report Card on Physical Activity for Children and Youth	Peter Bakalár
114	Results from Vietnam's 2022 report card on physical activity for children and youth	Phuong Nguyen
115	Results from Finland's 2022 Para Report Card on Physical Activity for Children and Adolescents	Piritta Asunta
116	Measuring physical activity inequality: Which group of the population is the most vulnerable?	Piyawat Katewongsa
117	Physical education as a protective factor for risk behaviors among adolescents in Israel: age/gender differences	Rachel Nissanholtz Gannot
118	Effect of physical activity promotion on sedentary behavior and glycaemic parameters in individuals with prediabetes	Radhika Jadhav
119	Healthy Active Kids South Africa (HAKSA) 2022 Report Card	Rowena Naidoo
120	Variability of daily physical activity in mid-aged adults	Ruth Brady
121	Results from the 2022 French Report Card on physical activity for children and adolescents	Salomé Aubert

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
122	National physical activity indicators for French children with a disability: para-Report Card and SWOT analysis	Salomé Aubert
123	Physical Activity, Screen Time and Dietary Patterns among New Zealand Adolescents in Diverse Settlement Types	Sandra Mandic
124	Comparing health and fitness status in competitive esports players' and age-matched controls	Sascha Ketelhut
125	Acute self-myofascial release using a foam roller lowers blood pressure and alters physiological stress response	Sascha Ketelhut
126	The prediction model development using machine learning methods for undiagnosed diabetes	Seonggyu Choi
127	Fulfillment of Sedentary Behavior and Physical Activity Recommendations in Mexican Office Workers	Sergio Alejandro Copado Aguila
128	Reliability of Newly developed Arabic sedentary behaviors questionnaire (ASBQ)	Shaima Alothman
129	The effect of a perceptual-motor intervention on the relationship between motor proficiency and letter knowledge.	Sharnay Botha
130	Kids on the Move: Israel 2022 Active Healthy Kids Report Card on Physical Activity	Sharon Levi
131	Changes in accelerometry measured physical activity and sedentary time during COVID-19 in school-going Indian adolescents	Supriya Thapar
132	Walking speed and prevalence of diabetes mellitus in middle-aged and older adults: a cross-sectional study	Susumu Sawada

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
133	Association between iron status and physical performance in South African adolescents: the PAHL study	Tamrin Veldsman
134	Relationship between dietary patterns and subjectively, objectively measured physical activity in aged over 85 years	Tao Yu
135	Comparison of meeting physical activity and screen time recommendations between rural and urban Canadian youth	Taru Manyanga
136	Results from the 2022 report card on physical activity for children and youth in Zimbabwe	Taru Manyanga
137	State of the Evidence of Active Living among Children and Youth in India	Tarun Katapally
138	Diurnal pattern of breaks in sedentary time and older adults' physical function	Ting-Fu Lai
139	United Arab Emirates 2022 Report Card on Physical Activity for Children and Adolescents	Tom Loney
140	Effectiveness evaluation of social media advertising on online exercise movie for Japanese adult women	Tomoya Ito
141	The impact of vacation on 24-hour movement behaviours: a prospective cohort study	Ty Ferguson
142	The Impact of Dance Interventions on Patients with Non-Infectious Pulmonary Diseases: A Systematic Review.	Vikram Niranjana
143	Sociodemographic, individual, and parental predictors of change in sleep among preschoolers during the COVID-19 pandemic	Wendy Yajun Huang

POSTER PRESENTATION AGENDA

Conference Hall A – Section D

Note: Poster viewing will be throughout the conference dates and presenters are requested to be in the Conference Hall A – Section D during session breaks.

Panel No.	Title	Presenter
144	Results from Hong Kong's 2022 Report Card on Physical Activity for Children and Youth	Wendy Yajun Huang
145	The correlation between BMI and motor development of 8-year-old children: The PERF-Fit study	Wilmarié Du Plessis
146	Physical activity vs. healthy body weight: which is more critical for Japanese to prevent diabetes?	Xiangyu Zhai
147	Physical Activity and Facial Emotion Recognition in Thai Adults during Covid-19 Pandemic	Yaowapa Trangan
148	Children and Adolescents with Disability: 2022 Active Healthy Kids Israel Report Card on Physical Activity	Yeshayhhu Hutzler
149	Translating GAPPa into Local Government Policy – interviews and workshop with city officials of Fujisawa	Yuko Oguma
150	Physical activity promotion in the Czech Republic: current state and future directions	Zdenek Hamrik
